

Introducing: NxTI Options for Internet and Integrated Access

TCO Network is pleased to announce **new bonded NxTI access options** for our Internet-only and Integrated Voice & Data service offerings. These new NxTI access options are available immediately for new circuit orders.

Expanded Internet-Only NxTI Options

- Internet bandwidth available from 3 Mbps (2xTI) through 12 Mbps (8xTI)
- NxTI provides scalable growth path to meet future requirements
- Enhanced nationwide footprint with lower pricing for NxTI connectivity
- Pre-configured customer premises equipment and professional installation

New Integrated Voice & Data NxTI Options

- Total bandwidth from 3 Mbps (2xTI) through 12 Mbps (8xTI)
- Includes 4 to 24 voice channels for local and long distance service
- Dynamic Bandwidth allows Internet to expand into idle voice channels
- Pre-configured customer premises equipment and professional installation
